

Reasons to hope

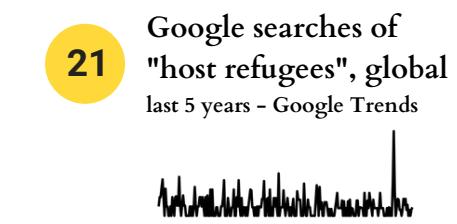

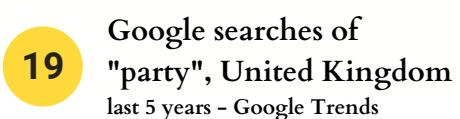

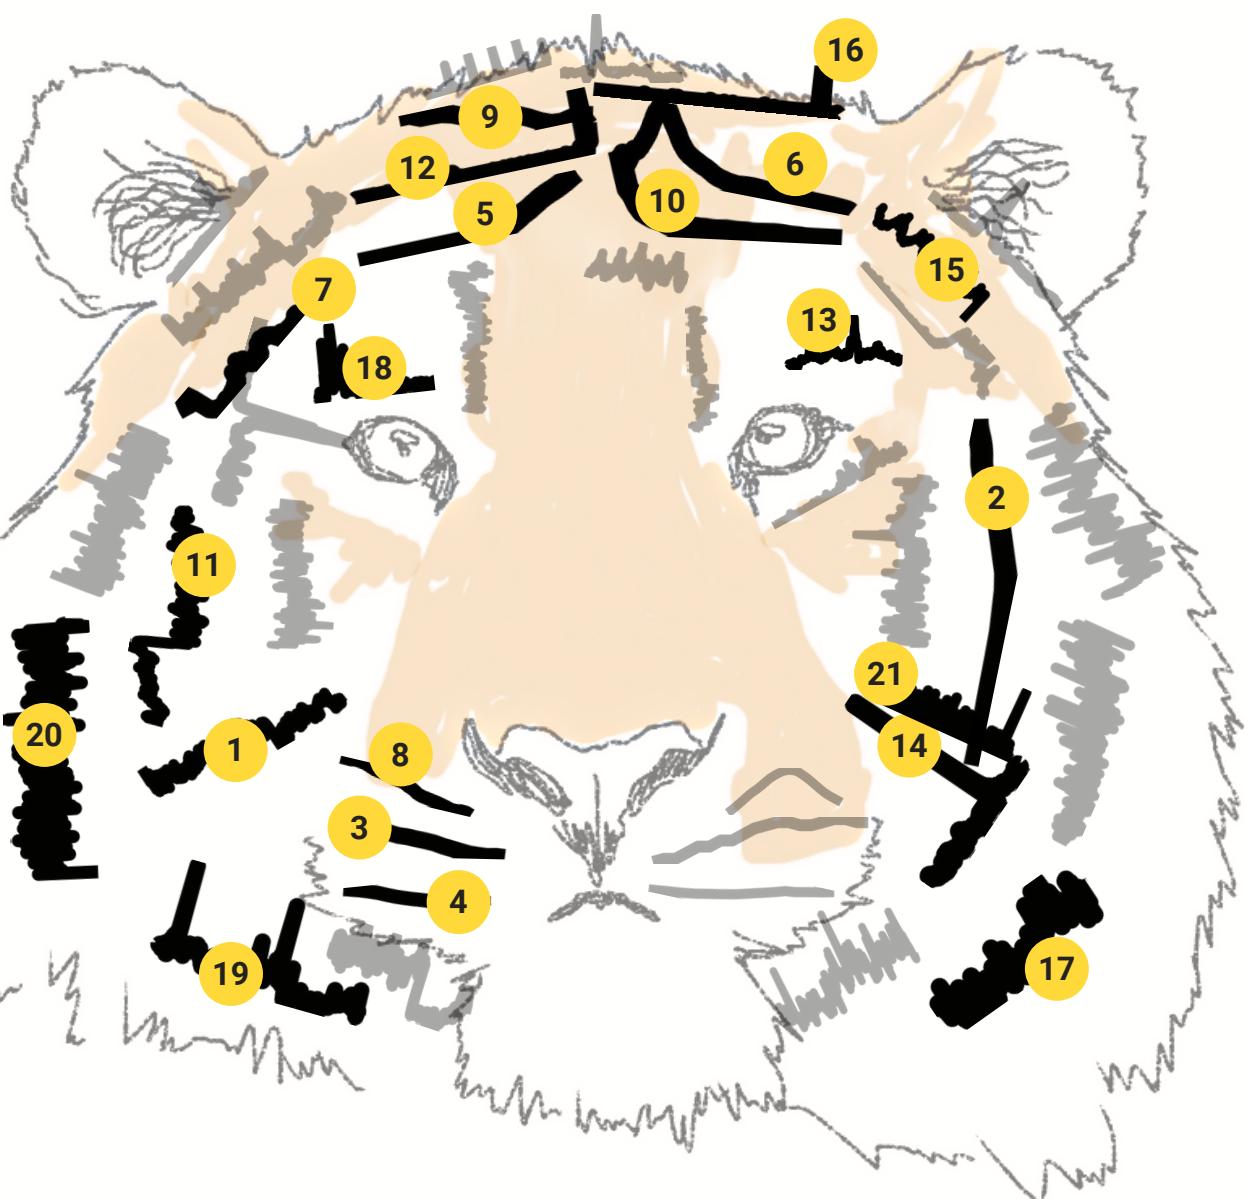

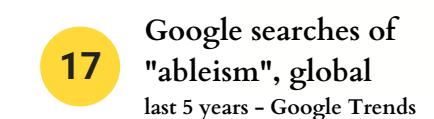

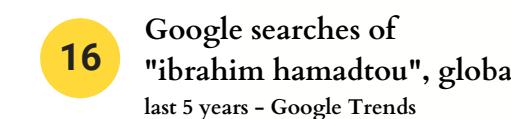

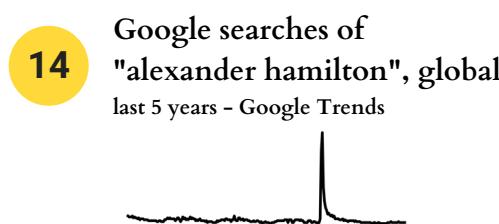

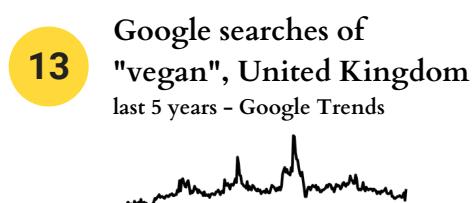

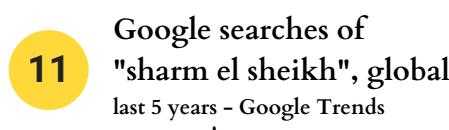

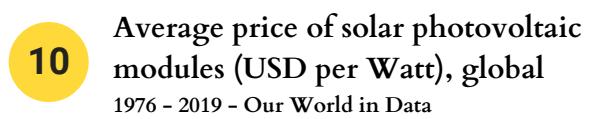

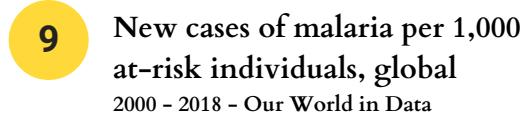

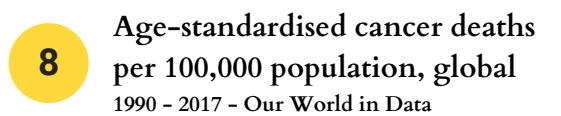

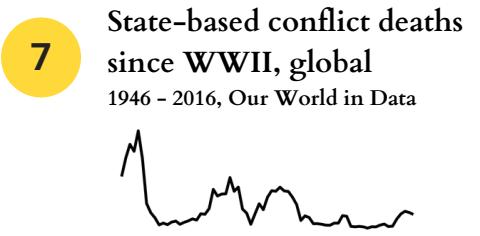

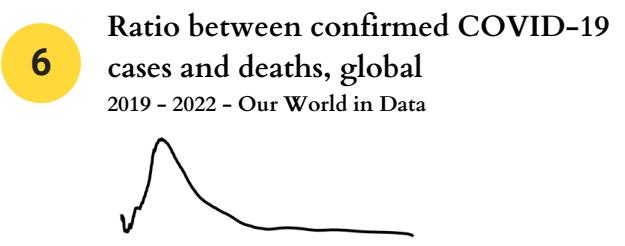

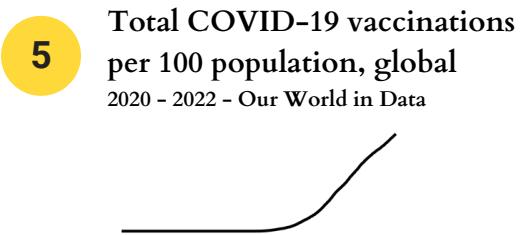

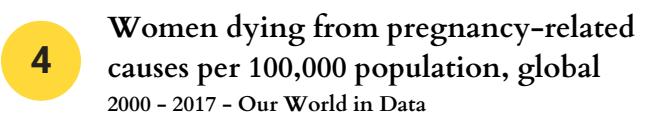

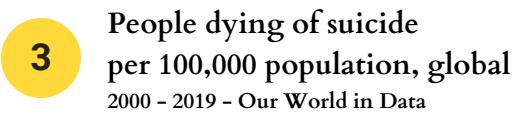

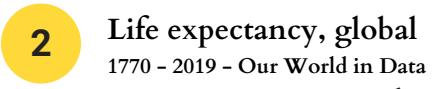

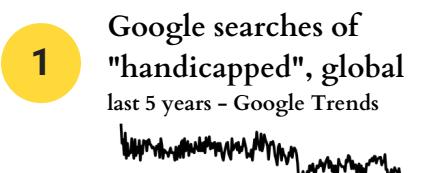

Celebrating the **Year of the Tiger** by visualising 42 marks of positive change

In no particular order, each tiger marking is a **line chart** showing a **move in the right direction** for the human species. Keep reading for examples from public health and social justice to the arts and altruism.

These data come from [Our World in Data](#) and [Google Trends](#). These charts were created using R's `ggplot2` package.

新年好!
